

How to use Gather.town

- Arrow keys ↑↓←→ to move you around
- Use CTRL + and CTRL - to make the screen larger/smaller
- On laptops, press x to interact with objects (pamphlets on tables, TV screens, etc.)
- If you go within 5 steps of another person, a group call will start automatically (unless you are in Ghost Mode or in a private space)
- There are lots of private spaces in all the rooms (the areas coloured dark grey): please use them!
- Screen sharing is of course possible: see <https://support.gather.town/help/screensharing>
- Use the Locate facility to find someone else in the space by clicking on their name on the left
- More information on <https://www.tobymarthews.com/gather.html> .
